Judy L. Bolton, PhD Receives 2016 INSIGHT Into Diversity Magazine Inspiring Women in STEM Award

National Recognition of Women Who Are Making a Difference in the Fields of Science, Technology, Engineering, and Mathematics (STEM)

Dr. Judy Bolton received the 2016 Inspiring Women in STEM Award from INSIGHT Into Diversity magazine, the largest and oldest diversity and inclusion publication in higher education. The Inspiring Women in STEM Award honors women who work to make a difference in the fields of science, technology, engineering, and mathematics (STEM). Dr. Bolton will be featured, along with 65 other recipients, in the September 2016 issue of INSIGHT Into Diversity magazine.

Inspiring Women in STEM Award recipients were nominated by a colleague and selected by INSIGHT Into Diversity based on their efforts to inspire and encourage a new generation of young women to consider careers in STEM through mentoring, teaching, research, and successful programs and initiatives. While many women who work in these fields have made significant contributions and have engaged in new discoveries and innovations, they are not always recognized for their hard work and dedication.

“We know women in STEM fields are not always represented or recognized for their success, dedication, and mentorship to others,” says Lenore Pearlstein, owner and publisher of INSIGHT Into Diversity magazine. “We want to honor those who are inspirations to their colleagues, their community, and to young girls everywhere who may be interested in a future career in STEM. We are proud to honor these women as role models to all.”
